GOBINDGARH PUBLIC COLLEGE, ALOUR, KHANNA

WORKSHOPS/CONFERENCES/SEMINAR HELD

About The Seminar:

The aim of the seminar is to highlight teaching strategies as the fore-runner of theories of teaching vis-a-vis theories of learning and development which are the precursor of different methods of teaching- describing how a child learns. Teaching strategies are prescriptive comprising inter-related components arranged in a sequence to realize specific goals, to design instructional material and environmental facilities, instructional activities to realize the stipulated objectives.

Teaching is not mirror image of learning, but both are equally effected by the behaviour of the teacher. Why does a teacher behave as one behaves in the class-room and how the behaviour of a teacher is influenced by the learning of students Ned A. Flander and others propogated C.R. Interaction Model of Teaching? The first model of teaching was propounded by Robert Glaser as early as in 1936. Joyce and Weils classified 23 models into four main categories.

Objectives

- To enable the teachers to differentiate Methods of Teaching from that of Models of Teaching.
- To enable them to prepare different model based lesson plan viz Concept Attainment Model based plan etc.
- To design the curriculum.
- To enable the teachers to know about Cognitive Development Strategies & Designs.

Theme:

Teaching Strategies-Their Designs and Innovative Practices in Teaching. According to Joyce and Weils there are four modern models of teaching viz

- Social Interaction Model
 - Information Processing Model
 - Personal Teaching Model, and
 - Behvaour Modification Teaching Model. Out of which first two major themes are to be highlighted . there will be a third theme as thrust area of Innovative Practices.
- Concept Attainment Model and its design, Role of teaching strategies in class room teaching
 - Cognitive development Model and its design.
 - Innovative practices in teaching.

Sub- Themes

- Presenting a design based on concept attainment model
- Presenting a design based on cognitive development model
- Innovative practices viz role playing and simulation techniques, use of ICT in the classroom teaching.
- Computer Assisted Instruction
- Teaching & Role of communication skills.
- Effective classroom management

The theme and sub-themes cover the intellectual, social relational & behavioral aspects of one's development

ORGANIZING COMMITTEE
