KAAV PUBLICATIONS, DELHI**

**NATIONAL SEMINAR ON GENDER EQUALITY AND WOMEN EMPOWERMENT (2018),  
13<sup>TH</sup> JAN 2018, PUNJAB**

The KAAV Publications and Gobindgarh Public College agree to the Memorandum of Understanding with respect to publication of the selected research papers of the GEWE-2018. This agreement is based on the principle of reciprocity and expresses the interest of both parties in collaboration for the academics' program in terms of publishing the research papers of scholars participated at GEWE-2018.

The followings are the details of the journals which can be selected for the publication of the paper as per the requirements.

- 1) Kaav International Journal of Economics, Commerce & Business Management- A Referred Peer Review Quarterly Journal- ISSN: 2348-4969, (Print & Online).  
Impact Factor: 7.8902 (2017), UGC Approved Journal Serial Number: 47663.
- 2) International Journal of Multidisciplinary Research and Development, A Referred Peer Review Quarterly Journal (Published from Nepal); Available only in Print Format, ISSN: 2594-3324.

- **Manuscript Design for Publication:**

- **Title Page**

A title page should be included. State the title of the manuscript, which should be short and simple, as well as authors and author affiliations. Indicate the journal to which the manuscript is being submitted. Provide approximately 6 key words, as well as a short title (sometimes referred to as a running title) for the manuscript. Finally, provide complete contact information for the corresponding author.

- **Abstract**

- The abstract is typically a single paragraph. The abstract should be considered as an independent document, so that the abstract does not rely upon any material in the body of the report and, similarly, the body of the report does not rely upon any material in the abstract. The first sentence should clearly state the objective of the experiment. If the experiment is based upon a hypothesis, which is greatly preferred, the hypothesis should be stated and followed with statements describing its basis and evaluation. The subsequent sentences describe how the investigation was carried out.

- **Introduction**

- The introduction requires a short review of the literature pertaining to the research topic. The introduction is then best constructed as a descriptive funnel, starting with broad topics and slowly focusing on the work at hand. Perhaps three to four paragraphs are needed.

- **Methods**

- This section should be a straightforward description of the methods used in your study. Each method should be described in a separate section. Begin, in a single section, with a statement of the materials used in the study. This information is critical so that readers have the capability to repeat the work in their own institutions. Next describe, in separate sections, each key procedure and technique used in the study. Keep explanations brief and concise. If a specific experimental design is utilized, describe this design in the second section of the Methods, after the materials section. Similarly, if a theoretical or modelling component is utilized, it should also be incorporated in the initial portion of the Methods.

- **Results**

- The Results section presents the experimental data to the reader, and is not a place for discussion or interpretation of the data. The data itself should be presented in tables and figures. Introduce each group of tables and figures in a separate paragraph where the overall trends and data points of particular interest are noted. Note that each table and figure in the paper must be referred to in the Results section. Be succinct.

- **Discussion**

- The discussion section, often the most difficult to write, should be relatively easy if the previous suggestions have been followed. In particular, look to the last paragraph of the Introduction. If the work has characterized a phenomenon by studying specific effects, use the results to describe each effect in separate paragraphs. If the work has presented a hypothesis, use the results to construct a logical argument that supports or rejects your hypothesis. If the work has identified three main objectives for the work, use the results to address each of these objectives. A well-defined study that is described in the Introduction, along with supporting results that are presented in the Results section, should ease the construction of the Discussion section.

- **Conclusions**

- Again, first introduce the work and then briefly state the major results. Then state the major points of the discussion. Finally, end with a statement of how this work contributes to the overall field of study.

- **Acknowledgements**

- Provide a brief statement acknowledging the efforts of any participants or consultants who are not included as authors of the manuscript. State all of the funding sources for the work, ensuring that the statement adheres to the guidelines provided by the funding institution.

- **Hindi & Punjabi Font**

- Hindi papers should be only in Kruti Dev 010 , other fonts not accepted.
- For Punjabi papers , all papers in a same Punjabi font and college will have to provide us that particular Punjabi font . We will format paper and sent to college again for proof reading of Punjabi paper. If in case font not working properly in our computers , so college will have to make proper formatting in a word file according to us and covert into a pdf , then send to us for final publishing.

**Processing fees:**

**Kaav International Journal of Economics, Commerce & Business Management- A Referred Peer Review Quarterly Journal- ISSN: 2348-4969. (Print & Online) , Impact Factor: 7.8902 (2017), (UGC APPROVED):**

- The publication fees would be Rs. 950/- per article for both online & printed copy if the number of articles are below 60.

**International Journal of Multidisciplinary Research and Development, A Referred Peer Review Quarterly Journal (Published from Nepal): Available only in Print Format. ISSN: 2594-3324.**

- The publication fees would be Rs. 1100/- per article/paper for printed copy only if the number of articles are below 60.

**LIST OF OTHER JOURNALS . YOU MAY ALSO CONSIDER FOR PUBLISHING**

- *Kaav International Journal of Arts , Humanities & Social Science : ISSN: 2348 - 4349, Impact Factor 7.9183 (2017)*
- *Kaav International Journal of Science , Engineering & Technology : ISSN: 2348 - 5477, Impact Factor 6.9101 (2017)*
- *Kaav International Journal of English, Literature and Linguistics :ISSN: 2349 - 4921, Impact Factor 6.9071 (2017)*
- *Kaav International Journal of Law, Finance & Industrial Relations : ISSN: 2349 - 2589, Impact Factor 5.8772 (2017)*
- *National Journal of Arts, Commerce & Scientific Research Review : ISSN: 2394 - 4870, Impact Factor 5.9781 (2017)*

YOURS sincerely
